

## FEATURES

| Symbol    | Parameter                   | Value  | Unit |
|-----------|-----------------------------|--|------|
| $V_{CBO}$ | Collector-Base Voltage      | 45   | V    |
|           |                             | 60   |      |
|           |                             | 80   |      |
| $V_{CEO}$ | Collector-Emitter Voltage   | 45   | V    |
|           |                             | 60   |      |
|           |                             | 80   |      |
| $V_{EBO}$ | Emitter-Base Voltage        | 15   | V    |
| $I_{CBO}$ | Collector Current           | 1.5  | A    |
| $P_C$     | Collector Power Dissipation | T133 -74.703 0 Td [(1.25 )-4187.2(W )]TJ ET 19.724 382.69 373.556 0.48 re f 19.724 369.015 0.48 13 |      |
